

David Oliver

David Oliver graduated from Saint Edwards University, currently resides in Forrest Oaks, and owns two properties in the subdivision. He's worked closely with the HOA to perform improvements on those homes. This interaction has triggered his interest in supporting the neighborhood HOA. David also believes there is a balance in enforcing the very rules that protect our investments. After all, we are all neighbors here.

The organization has improved by leaps and bound over the last couple of years, specifically in making information and forms easy to obtain online. David has a strong background in IT and software business, and hopes to help the HOA by providing additional oversight into spending, vendor selection, as well as planning and execution.
